

Word Bank: Seasons and Weather

Here are some of the terms students need to know about seasons and weather.
 Choose the words that your class will learn.
 Add more words, too.

Basics	Measure	Events	Effects	Careers
air air mass cirrus clouds climate clouds cumulus clouds current precipitation temperature tides wind	air pressure day degree dew point Fahrenheit humidity latitude longitude relative humidity temperature-humidity index thermometer thermostat wind vane	autumnal equinox summer solstice vernal equinox winter solstice	acid precipitation blizzard greenhouse effect hurricane thunderstorm tornado trade winds tsunami weathering	meteorologist meteorology weather forecaster

To "bank" a word, students should demonstrate that they really know what it means.
 These demonstrations can include:

- writing a definition
- finding the word used in a book
- giving a specific example
- drawing a picture that shows what the word means
