

Writing Connections

ILS 3A: I can use new vocabulary in sentences.

When you write you use all your vocabulary skills. The following writing activities are designed to help you learn words and develop your writing skills.

Expanding Sentences

A sentence makes sense. It states a complete thought or fact. Start by completing these sentences with words that would make sense in these sentences.

The _____ said that the _____ is over.

The _____ is one of the most important parts of _____.

You usually see a _____ and a _____ in the same place.

Now, add more words to one of the sentences. Fit more words from into the sentence. Be sure it still makes sense.

Write more sentences that you make up. Include at least two words from the Word Wall or books in each sentence. After you write the sentence, then try to expand it with more words.
