

# I can identify and classify sequence.

*Answer these questions based on a story or history or current event—or a science topic.*

- ❖ What happened first?
- ❖ Put the events in order from first to last.
- ❖ Make a timeline—show what happened.

A horizontal timeline diagram consisting of a horizontal line with an arrow pointing to the right. Below the line are four empty rectangular boxes, each connected to the line by a vertical line, intended for writing events in sequence.
