

Paragraph Reader: I can identify the main idea

I can identify important parts of a paragraph and use them to identify the main idea.

This Graphic Organizer can be used to assess if completed independently, or as a learning guide.

After you read each paragraph, complete one of these activities.

- Choose 4 important words, write them in the box for that paragraph.
- Draw a picture that shows what the paragraph says.
- Write what you think the main idea is of the paragraph.
- Write a question about the paragraph.

Then tell what you think the main idea is of the passage.

You can do the same activity four times or four different activities—your teacher will guide you.

What do you think is the main idea of the page?
