

## Constructed Response Organizer

Take each of these steps to learn how to write a good constructed response.

1. Read the question carefully.
2. Re-read the passage. **Think about the question.**
3. What is your idea? What will you explain?

---

---

3. List important information from the passage that supports your answer. Write in your own words.

4. Put numbers in the boxes on the left of each row. Number the information you will include in the order you will use it.

5. Then write your response. You can use your list as an outline.
