Show Cause, Effects, and Response
CCSSR3 Analyze relationships.

Write on the lines to explain diagram to show the cause of a choice, event or change, its effects, and the response.

Cause: __________________________________________________________

Effects:
______________________________________________________________
______________________________________________________________

Response: ________________________________________________________
_________________________________________________________________
_________________________________________________________________

Added Challenge:
Write to explain how you figured out the character’s response. Use information from the text to support your explanation.
