

Make a Learning Mobile

What's this about?

Every system has parts.

A mobile can show those parts and how they interact.

What should you think of when making a system mobile?

- 1) what's the system?
- 2) what are its parts?
- 3) which parts should move towards each other?

What system could you show in a mobile?

- ✓ A number system
- ✓ A government system
- ✓ A school system
- ✓ A family system
- ✓ An ecosystem
- ✓ ...

Why show it in a mobile?

Because mobiles show interaction, and the parts of a system interact.
