

Environment Illustrator

Common Core Anchor Standard 2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.

Directions: Read about an environment. Then plan and sketch a drawing of an environment—a landscape. A landscape is a picture of an environment. It shows the plants, including grasses, flowers, trees, and bushes, as well as the land, and it may show water and the sky, too.

What idea do you want people to understand about the environment when they see your picture?

What will you include in your landscape to show the environment?

Kinds of Plants	Kinds of Land (can include bodies of water)	The Sky

Draw your sketch here. If you have time, you can paint the landscape, adding color to show more about what the environment looks like.
