

Infer Character Traits

Read carefully (CCCSSR1) to infer traits based on events in a story (CCSSR3) and writer's techniques (CCSSR5).

Choose one character from the story.

List two traits of that character.

Tell why you think the character has that trait.

Trait	Evidence What the character says or does that shows that trait.

THINK MORE

How does the writer help you understand the character?

For example, what does the narrator say about the character? What do the other characters say to or about the character?
