

Find Choices, Changes, and Consequences

ILS 1B: I can identify and support a main idea.

Look at the museum exhibit about Chicago's history.

1. Choose one change
2. Write it in the triangle.
3. Then draw pictures or note words, one to each box, to show why you think people made that choice.
4. Then draw pictures or note words, one to each oval, telling how that change would affect people.
