

May-8-09

Dear Mayor Daley,

I am a third grade student at Nathan Hale Elementary School. I like to play Baseball and I like reading, math, and science very much. I have 2 brothers 1 sister. My family is a family of 6 persons.

In school, recently we have been learning about Chicago. I learned that Chicago houses were very small, I learned that people in our community are the ones who make a difference. I also, read that Jane Addams helped Chicago in many ways. For example, she built a place for homeless people called the Hull-House. She also helped cleanup Chicago.

Like Jane Addams helped Chicago,

I wish for there to be more parks. In my cousins' community there are many children and they don't have a nearby park. Parks benefit children and make communities look more beautiful. Parks should be built in places where it's empty. Many communities have children who want to enjoy entertainment in parks. I wish that they built a couple more parks to enjoy.

It is important because many communities don't have parks, and I think they might like one built in their community. Children will feel good with a new park. It will make children get more entertainment.

In conclusion, parks make children happy. I hope you consider my idea because I think it will be great for our future.

Sincerely,
