

## Inferring Values

*CCSS Anchor Standard 1. Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.*

You can tell what a person's values are from what the person says and does. You also can infer the values of a person that an artist paints. Use this chart to tell the values that you see in a work of art.

What I See--Literal	Value I Infer
What is the person doing?	
What is the person looking at?	
What is the person wearing?	
What is in the place where the person is?	
What else do I notice?	
What else do I notice?	

What do you infer the artist wanted you to understand about this person's values?
