

## **NONFICTION Paragraph Reader: I can identify the main idea**

CCSSR2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.

After you read each paragraph, complete ONE of these activities.

- Choose 4 important words, write them in the box for that paragraph.
- Draw a picture that shows what the paragraph says.
- Write what you think the main idea is of the paragraph.
- Write a question about the paragraph.

Then tell what you think the main idea is of the passage.

*You can do the same activity four times or four different activities—your teacher will guide you. If the passage is longer than 4 paragraphs make more boxes and keep noting what you think is important.*

***What do you think is the main idea of the page? Use your notes to figure it out.***
