

STRATEGIC THINKING: ANALYZING QUESTIONS/ANSWERS

Use this format to analyze a multiple-choice question and build thinking skills and prepare to succeed on tests, too.

1. What does this question ask?

Re-state it in your words.

2. What information do I need to answer it?

Look closely at the question and information provided. Some of the information will be useful. Some will not be important to this question.

What kind of information do you need to use?

3. What steps do I need to take to answer it?

What's your strategy?

4. The answer that fits best is: _____

Tell why it's the one best answer.
