

## Word Bank: Animals

Here are some of the terms students need to know about animals.

Choose the words that your class will learn.

Add more words, too.

Basics	Classify	Relationships	Patterns	Careers
adult	amphibian	biome	adaptation	biologist
alive	arthropods	community	cartilage	ecologist
antennas	bird	dominant species	chromosome	entomologist
backbone	carnivore	ecosystem	endoskeleton	geneticist
body	class	food chain	exoskeleton	sociobiologist
bone	crustacean	food web	exothermic	veterinarian
cell	endangered	genetics	hibernation	zoo keeper
cold-blooded	fish	habitat	migration	
egg	herbivore	heredity	mutation	
heart	invertebrate	niche	protein	
life cycle	mammal	predator	shed	
muscle	marsupial	prey		
organ	parasite	symbiosis		
teeth	reptile			
tissue	vertebrate			
warm-blooded				

To “bank” a word, students should demonstrate that they really know what it means.

These demonstrations can include:

- writing a definition
- giving a specific example
- finding the word used in a book
- drawing a picture that shows what the word means
