

Expand Thinking by Explaining Thinking

If you explain a skill or strategy, then you know you know it.

Example

Skill: Infer the meaning of a word from context.

How to do it:

1. Figure out the topic of the text.
2. Figure out what the sentence the word is in means.
3. Read back and make sure you know what the sentence before it means, too.
4. Make an educated guess of what you think it means.
5. Read the sentence with that guess and see if it makes sense.

Your Example:

Skill: _____

How to do it:
